

IIT MADRAS RESEARCH PARK

Bringing Unlike Minds Together

Enabling Industry - Academia Collaboration

Collaborate

Interact

Innovate

First University based Research Park in India, aimed at fostering high quality collaborative R&D. Located adjacent to IIT Madras, it is part of IITM's extended campus.

IIT Madras Research Park is home to one of the finest incubation ecosystems in the country. It currently has over 108 start-ups to its credit.

Bringing together R&D personnel from the Industry, and faculty & students from IIT Madras, increases the probability of successful innovation manifold.

IIT Madras Research Park is an independent Section 8 company, promoted by IIT Madras and its alumni, and governed by a Board comprising of distinguished academicians, leading industry leaders and government representatives.

As part of our active innovation ecosystem, you can

set up your R&D Centre/Lab at IIT Madras Research Park; and...

1. Engage with students

You can guide, mentor, recruit, sponsor and teach some of the brightest minds in the country

2. Work with faculty

You can work as adjunct faculty, and conduct R&D and consultancy projects with over 650 eminent professors from 16 academic departments

3. Utilize Research Labs & Research Centres at IITM

You can make use of research labs, testing facilities, centres of excellence/ interdisciplinary research centres, and other facilities at IIT Madras for your R&D

4. Identify technologies for commercialization

With the help of the expertise of faculty and research centres at IITM, you can identify technologies for licensing and commercialization

Innovation thrives when Industry professionals, faculty and students interact in a formal or informal environment.

Work closely with technology driven start-ups...

 Spearheaded by IITM Incubation Cell, the incubation ecosystem includes Sector-Specific Incubators: Rural Technology and Business Incubator, Bio-incubator & MedTech Incubator

 Around 40 start-ups incubated every year, with strong IP base & 10% of them becoming 'blockbusters'.

 You can mentor, collaborate and fund startups who are working to address key challenges facing the country, especially in areas such as energy, healthcare, environment & manufacturing.

"We also get an opportunity to engage and mentor start-ups doing interesting work"

- Mr. K Ananth Krishnan
(Alumnus of IITM)
CTO, TCS

Upfront Payment of Rs.2,800/sq.ft.

Monthly Charges: Rs.14/ sq.ft.

Research Credits: 150/ 1000 sq.ft./Year

Short Term Lease (3 Years):

Security Deposit: 10 Months

Category A

Rs. 42/ sq.ft./month;

Research credits: 150/ 1,000 sq.ft./Year

Category B

Rs. 50/ sq.ft./month

Research Credits: 100/ 1,000 sq.ft./Year

Credit Point System

R&D clients are expected to engage with IIT Madras through these modes of interaction:

Project Category

Credits

R&D Projects to IC&SR	200 / Rs.10 L
Consultancy to IC&SR	200 / Rs.10 L
Royalty	100 / Rs.1 L
Adjunct Faculty/Chair Professor	200 / year
Sponsored PhD Student	100 / year
Sponsored M.S Student	75 / year
Joint PhD Guidance	100 / year
MS Guidance	75 / year
M.Tech Guidance	75 / year
B-Tech/ M. Sc./ M.A Guidance	50 / year
Full-time Jobs for Graduates	50 (once)
Faculty Lectures to R&D Clients	Max. 5
Continuing Education	Max. 5
Teaching by Industry Personnel	2 / hour

Infrastructure

Artistically designed and constructed by the best in the industry, IIT Madras Research Park stands tall on 1.2 million sq.ft. of built-up space. The first Phase with a built-up area of 0.4 million sq.ft. has been operational since March 2010.

The second Phase with 0.8 million sq.ft. comprises of four blocks that cater to the physical requirements of various industries such as facilities to set up workshops with heavy machinery and set up wet & dry labs, to name a few. Organizations can create their own signature style interiors and layouts to suit their needs. The overall upkeep and maintenance will be managed by IITMRP.
